*Lumley Castle*

## PROGRAMME OVERVIEW

There are two courses available, both consisting of lectures of clinical and practical importance, case studies, and hands-on workshops.

## BEGINNER COURSE

Designed for new and potential capsule users, this course provides an introduction to capsule endoscopy in clinical practice. On completion of the course, participants will be able to:

- Understand the clinical applications of capsule endoscopy
- Use the computer hardware and software
- Perform capsule endoscopy
- Begin to interpret a range of pathologies

CME accreditation applied for

## ADVANCED COURSE

This course is designed to address the needs of established capsule endoscopy users, with an emphasis on advancing interpretation skills, and providing an update on the latest clinical and technological developments. Participants will have the opportunity to review and discuss difficult cases with unusual or atypical findings and interpret a range of normal and look-a-likes.

CME accreditation applied for

Pillcam®
